

ELLIE ALEXANDER

INTERIOR DESIGNER

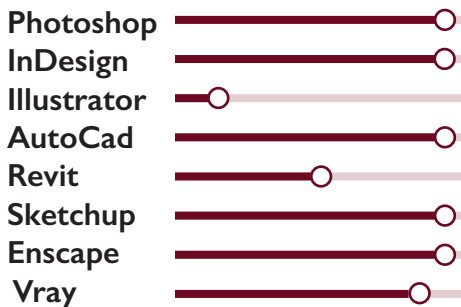

When Designing I always strive to create inclusive spaces that will meet the needs of the users and elevate their day to day lives. I am incredibly interested in biophilic design and the calming effects it can produce to a space and this is then injected into my design process.

Software Skills

Physical Skills

Hobbies

Outside of my career I have a passion for fitness and a current goal I have is partaking in a half marathon in July 25 for Young lives vs Cancer. Socialising through cooking, and watching rugby are what I opt to do in my free time.

University of Edinburgh Interior Design Graduate

Experience

Interior Design Student, McAdam Design Belfast
July - August | 2024

- Designed and proposed residential interiors for client approval in RIBA Stage 2 concept design through visual renders, mood boards, and floor plans.
- Involved in office CPD meetings to develop knowledge on suppliers materials and services.
- Attended BREAM certification meeting and gained knowledge on what requirements need to be met to achieve a certification.
- Created rendered animations on escape for a client to walk through projects and see vision of design using Revit.
- Assisted in creating carpet floor plans for commercial project. Proposed by client with specified pattern requirements

Waitress (Hospitality)

Matto Pizza , Morningside, Edinburgh
September - May | 2022 - 2025

While studying in university I have had a part time working front of house.

- I maintain a high level of customer care and engaging with the customers needs and answering any questions or concerns.
- Clear communication skills with colleagues to ensure a smooth service is vital to be able to work efficiently as a team.

Education

University Of Edinburgh, Edinburgh College of Art
Lauriston Pl, Edinburgh

Interior Design BA (Hons) | 2021 - 2025

Interior designing, Surveying, Detail Packaging, Model Making, Textile Design

For my final year in Interior Design I have specialised in inclusive design for individuals who are neurodivergent. Creating a community centre to connect families alike in a controlled and supportive environment. My design project was supported by my dissertation research on this topic.

I have been part of the graduate show committee assisting with making creative choices on how the space will be perceived by the public and the flow of the exhibition.

Projects I have completed

- 2025 Autism Community centre
- 2024 Textile library
- 2023 David Mellor retail project
- 2023 Lighting Design
